CLIENT PROPOSAL

WhatsApp CRM setup that helps your team respond faster, follow up better, and close more leads.

This proposal from Signhify Agency, also operating as Piyush Media and Marketing, is built for businesses that already get customer conversations on WhatsApp but need a more reliable system for ownership, follow-up, tracking, and conversion.

THE CURRENT PROBLEM

Leads arrive on WhatsApp, but conversations are scattered, responses are delayed, and no clear sales process exists for tracking what is hot, what is pending, and what is closing.

BEST FIT

Real estate, clinics, education, agencies, and service businesses with teams handling inbound WhatsApp leads.

What You Will Get

- Shared WhatsApp inbox for team visibility and faster handoffs
- Lead pipeline with clear stage tracking and owner assignment
- Contact records, reminders, follow-ups, and saved replies
- Admin and team access control for cleaner operations
- Hosted setup, deployment, support, and launch guidance

Why Clients Buy This

- They want to stop losing good leads inside busy chat inboxes
- They need faster response times from the sales team
- They want clear accountability for who owns each conversation
- They need better follow-up discipline to improve close rates
- They want one simple system instead of manual WhatsApp chaos

EXACT PRICING

STARTER PLAN

GROWTH PLAN

SETUP AND LAUNCH

Rs. 24,999

Rs.
6,999/mo

For small teams needing one shared inbox, contacts, pipeline visibility, templates, and follow-up management.

Rs.
14,999/mo

For growing teams that want stronger accountability, better process control, cleaner reporting, and more consistent closing.

One-time implementation fee covering setup, branding, onboarding, workflow tailoring, and launch support.

Recommended offer: Start with the Growth Plan plus Setup and Launch for the strongest ROI and the cleanest rollout.

Delivery and Timeline

Signhify Agency will configure the CRM, prepare the live deployment, organize the workspace, and support your team through launch. Standard delivery timeline is 3 to 7 business days depending on custom workflow needs, training requirements, and onboarding scope.
